TruDeck® is a revolution in composite decking distributed throughout the UK by MBM Forest Products Ltd. TruDeck® is manufactured in Germany by market leader NOVO-TECH Trading, the No. 1 manufacturer of composite decking in Germany. A major factor in the product's success has been the high percentage of wood fibre used. The boards consist of up to 75 % natural fibres which gives you a warm and natural feel underfoot. This high proportion of wood fibre also provides exceptional durability when compared to most plastic wrapped alternatives. Both companies share many of the same beliefs – quality of product, customer service values and environmental responsibility. MBM was formed in 1966 and has gone from strength to strength in recent years, with individual trading companies well positioned to deliver products quickly throughout the UK. TruDeck® is now a part of the landscaping product portfolio available to all of MBM's customers.

TruDeck®
Woodland Brown

PRODUCT RANGE

TruDeck® Deckboards	Thickness & Width	Length

Secret fixing & wood screws	50 pcs	2.5 m² per pack
End clips & wood screws	25 pcs	7.5 m² per pack

LOW SLIP TEST

IS YOUR DECKING TESTED FOR SLIP RESISTANCE?

TruDeck® composite decking has been tested and passed the requirement for 'low potential for slip'. When considering any decking products you should ask to see test results for British Standard - BS7976 part 2. To meet this British Standard test any deck board needs to achieve a reading of 35 or higher in both wet and dry conditions. For our full test results please contact MBM Forest Products Ltd. or visit our website www.trudeck.co.uk.

WHAT IS PEFC AND WHY IS IT SO IMPORTANT?

The Programme for the Endorsement of Forest Certification (PEFC) is an international non-profit, non-governmental organization dedicated to promoting Sustainable Forest Management (SFM) through third-party certification.

MBM and NOVO-TECH Trading take sustainable forest management seriously and we are proud to say that the TruDeck® product is made from timber that has been sourced from PEFC certified forests throughout Germany.

WARRANTY DETAILS

TruDeck® comes with a market leading warranty* valid for both residential and commercial use decks. NOVO-TECH Trading warrant that their deckboards will be fit for purpose for 10 years from the date of first purchase:

- 0 - 10 years: Full product replacement
- 0 - 5 years: Full replacement product including costs for de-installation and re-installation of any defective items.

* For full details of the warranty scheme, installation requirements, what is and isn't covered and your responsibilities please contact MBM Forest Products Ltd. before installation or visit our website www.trudeck.co.uk.

Installation Instructions & Advice

Please contact your local merchant or visit our website www.trudeck.co.uk to download our installation instructions. It is important you do this before you begin planning your deck. If you would like advice on how to install your decking, please contact your local merchant or MBM who will be happy to help.

ARE YOU A SPECIFIER OR CONTRACTOR?

We would love to hear about your project and work with you. Please contact MBM with any questions or help you may need.

WHY TruDeck®?

- The market leading warranty includes cover for remedial costs
- TruDeck® is a more natural product than plastic wrapped alternatives
- Higher durability compared to many alternatives
- Boards are 193 mm wide – they are more comfortable underfoot and provide you a significant time saving at installation
- PEFC environmentally certified deckboards
- Manufactured by Germany's market leader
- Child & pet friendly
- Slip-resistant deck boards in both wet & dry conditions
- Perfect for both residential and commercial decks
- No splinters
